11/01	Mom’s Bible Study 3:35 Lies Women Believe
11/02	Fudge Packets Turned In Student Sales End

FUDGE FEST

Fudge Fest begins today— October 19th!!! We will be sending home your fudge packets with all the exciting details!!! We have fun ideas for our students and great incentives as they achieve their goals.

We need you to do a couple of things:

1. Look at the packet we send home. It has lots of information and will answer many of your questions.
2. Pay attention on the CCS Insider Page (Facebook) as Julie & Liana will go over FAQ and will give you tips and ideas throughout the next couple weeks.
3. Do your best! If you need help, please reach out to Julie or Liana—we want every student to be successful and to win their prizes.

We have had a great 1st quarter at CCS. We will be sending report cards home as we get them finished up. We will be sure to let you know as we send them with your student.

Fundraisers.

Praise the Lord, we have had lots of success with our recent Fundraisers! Thank-you for supporting, donating and helping CCS!

\$595 from the Legacy Car Wash Fundraiser!

\$270 donated at the Chili Cook-Off!

\$227 from Pizza Ranch

\$58 in tips from Pizza Ranch & Legacy

Cleaning Family #1 Divo Cleaning Family #2 Flores

You will be sent home a zippered packet on Friday with your oldest child. It should take you about 1 hour to complete. Monday send it back in your students backpack or leave on office desk. Any questions?
Call Julie Tiemeyer 402-942-1033

Mom’s Bible Study

If you were unable to come the first week, but still have interest, please join us after school every Monday for a Bible Study. Together we will go through the book: [Lies Women Believe](#) by Nancy Leigh DeMoss. Kids are welcome to stay, have snacks and play together.

Nebraska-nauts

Our school had the unique opportunity to attend the state wide event in Grand Island last week. We heard from a group of professionals from Nebraska who have worked for NASA. The most exciting interview was with 3 astronauts who are currently at the International Space Station. Along with the interviews, students participated in several different STEM stations. Creating their own solar systems and straw rockets were easily the students’ favorites.

Pumpkin Patch

Our field trip to Poppy’s Pumpkin Patch was full of fun and activity. We raced on big tricycles, petted llamas, donkeys and chickens, zipped down the zip lines, slid down the giant slides, had picnic style lunch, and so much more. Hopefully, you saw the pictures on CCS Insider (Facebook). Look for the fall quarterly Mane Events (coming out soon) to see even more pictures of our fun.

CLASSROOM NEWS

Playschool/Preschool -Mrs. Brant

Playschool & Preschool

Both Classes are in a review week, so we are taking our time and enjoying more of the fun art projects and activities. Review time has a purpose—it strengthens the connections of the wiring in brain and it develops a concrete base in which to build more learning.

K, 1st & 2nd -Mrs. Beck

Lots of excitement in Mrs. Beck's classroom last week! Two caterpillars were found on the playground. The kindergarten, first, and second graders worked together to provide for its basic needs. We named the caterpillars Climby and Oscar. They were very active the first day but have been very sleepy the longer they are a part of the classroom. Students are making perditions about why they are sleeping so much. Are they preparing to make a cocoon? Are they sick or hurt? Stay tuned as we observe the caterpillars as they grow a change.

Our class will begin a new focus on the writing process. All grades will begin having opportunities to participate in Writers Workshop. During Writers Worship students will practice planning, drafting, revising, proofreading, and publishing their stories. I look forward to sharing the work of our little authors.

3rd, 4th & 5th -Mrs. Makovicka

Our field trip to Grand Island was amazingly cool. We had fun learning about the planet positions in our galaxy. We also made rockets out of straws and experimented with the designs. Some of the rockets traveled quite far. The high point of the day was the downlink between us and the astronauts on the Space Station. They even answered our questions.

Today is the first day of the 2nd quarter and I have made minor changes. The student desks have been rearranged and they now have their daily planners. Their assignments are written on the board everyday. Now, they must write them down in their planner, check them off once completed, and have you sign/initial it every night. We can also send notes back and forth using the students' planners. It is the students' job to remind you to sign their planners. If they do, they will be awarded a sticker for their sticker sheet. Thank you for helping them meet this requirement.

We are also starting a new chapter in Science, English, and a new unit for reading it is a novel study of Sarah Plain and Tall. Have a Blessed Week,

Mrs. Makovicka

3rd, 4th & 5th -Mrs. Pontow

Bible: By learning how to use a Bible concordance and how to apply contextual reading skills to help "get the whole picture" of a scripture, we continue our unit on how to rightly divide God's Word.

We are blessed as we learn to search the treasure trove of "If --- Then" statements found in the Bible. These statements offer us clear directives and guide posts for everyday living as a follower of Christ. Examples:

Prov. 2:1-5 My son, if you accept my words and store up my commands within you, turning your ear to wisdom and applying your heart to understanding—indeed, if you call out for insight and cry aloud for understanding, and if you look for it as for silver and search for it as for hidden treasure, then you will understand the fear of the Lord and find the knowledge of God.

II Chronicles 7: 14; If My people, who are called by My name, will humble themselves, and pray, and seek My face, and turn from their wicked ways; Then will I hear from heaven and heal their land".

Math:

3rd Grade: Learning geometry shapes and terminology. Multiplying with carrying!

4th Grade: Division review work and multiplying with 3-digit factors.

5th Grade: Remainders as Fractions; Fractions with common denominators; Mixed numbers.

Worship & Drama Team

This week the drama team will be performing a skit about Joseph. Caleb Vasquez, aka Professor Positive will be auditioning for the Super Hero Team. Join us or watch live on CCS Insider (Facebook) Wednesday -8:30 am.

Worship Team Practice: Tuesday and Thursday-7:45-8:15 & Friday 2:30 (afternoon during recess time).
